in Research
of Energetic Materials*

Venue – lecture hall A1, University of Pardubice

NTREM 2017

April 26 – 28th, 2017

**First Announcement of
20th International Seminar**

topic

**20 years - where we were and
where we are going**

The twentieth consecutive seminar on new trends in research of energetic materials (NTREM) is intended to be a world meeting where junior scientists and students meet with each other and also with well-established experts working in the fields of teaching, research, development, processing, analyzing and application of all kinds of energetic materials. The goal the organizing committee is to create a pleasant atmosphere where young specialists from various countries will have an opportunity to exchange professional information as well as gain personal contacts.

University of Pardubice
Faculty of Chemical Technology
Institute of Energetic Materials
Czech Republic

Registration Fees

The entry is fee of charge to enable attendance of students and junior researchers.

A voluntary donation of about €100 - to help co-sponsor the seminar will be greatly appreciated from well established participants.

Official Language

The official language is English.

Dates

Abstract – 31st, December 2016
Full text – 20th, March, 2016

Tourist information

www.czechtourism.com/t/pardubice/

Venue

The seminar will traditionally take place at the main lecture hall of the University of Pardubice. The venue is conveniently accessible by walk from practically any hotel in the city center.

Walk through small historical center of Pardubice, visit of the castle in town or the castle on Kinetická hora by inline skating trail can help relax after the day of lectures. Some nice historical landmarks are further located nearby and are easily accessible by car or train.

Framework program of the 20th Seminar NTREM
