

Application for Membership - The International Pyrotechnics Society

President

Dr. Ken Smit
(Australia)

Vice President

Dr. Magdalena Rusan
(Germany)

Vice President

Dr. Denis Spitzer
(France)

Secretary

Dr. Shingo Date
(Japan)

Treasurer

Scott Hall
(USA)

Archivist

Dr. Zac Doorenbos (USA)

Immediate Past President

Dr. Jesse Sabatini
(USA)

History and Objectives

The objectives of The International Pyrotechnics Society are:

1. To promote and facilitate the exchange of information concerning the science and technology of energetic materials, including propellants, explosives, and pyrotechnics, among all interested persons.
2. To create and maintain information resources which can expedite and enhance a member's search for information regarding the science and technology of energetic materials as well as information on devices and applications which utilize energetic materials.
3. To sponsor or sanction symposia on topics in the field of energetic materials research, development, technology, and applications at such intervals as may be appropriate to further its first purpose as stated above.
4. To encourage research and education in the science and technology of energetic materials.

Visit the Society's WEB page at <http://www.intpyro.org/>. Two ways that the Society meets these objectives are: (i) by sponsoring the International Pyrotechnic Seminars series and (ii) by the Society's affiliation with the journal *Propellants, Explosives, Pyrotechnics*.

Even though the Society was officially formed in 1980, its history began in a substantive way when the First International Pyrotechnics Seminar was held at Estes Park, Colorado, USA in August 1968. The seminars, held in even-numbered years in the United States, have grown from approximately 50 attendees representing three countries in 1968, to over 141 attendees from 21 countries at the 43th Seminar in 2018. Society-sponsored International Pyrotechnic Seminars also have been held in Germany, France, Spain, United Kingdom, Sweden, China, New Zealand, Russia, Japan and Australia.

Membership

Membership is open to all persons of good character who can demonstrate a bonafide interest in pyrotechnics, defined in the broad sense to include all exothermic energetic materials, whether for commercial or military applications.

Subscription to Journal

Society members are entitled to a print subscription to the Society's official journal *Propellants, Explosives, Pyrotechnics* at a special discount rate of approximately 25 percent of the regular and annual print price. Please indicate that you are a Society member in your subscription request (<http://www.interscience.wiley.com/journal/pep>).

Membership Dues:

Regular: \$50 USD for two years (July 1 through June 30, two years later)

Corporate*: Sustaining, \$200-\$999 USD biennially *Includes IPS Membership for CEO
Supporting, \$1000-\$2000 USD biennially & his/her nominee(s) – 1 member for
\$200 USD contributed.

Life: A Life Membership can be purchased for \$600 USD

**Please send your completed application with a check, bank draft, or money order payable in U.S. dollars to International Pyrotechnics Society and send to:
(Inquire about payment by credit card or send payment via PayPal at ipsmembership2@gmail.com)**
